

**GOVERNMENT OF INDIA**  
**MINISTRY OF STATISTICS AND PROGRAMME IMPLEMENTATION**  
**CENTRAL STATISTICS OFFICE**

New Delhi  
Dated the 12<sup>th</sup> of May, 2017

**PRESS RELEASE**

**REVISION OF BASE YEAR OF ALL-INDIA INDEX OF INDUSTRIAL PRODUCTION FROM 2004-05 TO 2011-12**

1. The Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation, revises the base year of the macroeconomic indicators, as a regular exercise, to capture structural changes in the economy and improve the quality and representativeness of the indices. In this direction, the base year of the all-India Index of Industrial Production (IIP) has also been revised from 2004-05 to 2011-12 to not only reflect the changes in the industrial sector but to also align it with the base year of other macroeconomic indicators like the Gross Domestic Product (GDP), Wholesale Price Index (WPI).
2. Revisions in the IIP are necessitated to maintain representativeness of the items and producing entities and also address issues relating to continuous flow of production data. In the past, such changes were effected at the time of a revision in the base year. With the release of the new series of IIP (base 2011-12), an institutional mechanism has been established for facilitating dynamic revision of the item list of products and the panel of factories, through a Technical Review Committee, chaired by Secretary, Ministry of Statistics & PI. This Committee will meet at least once a year for identifying new items that need to be included in the item basket and removing those that have lost its relevance in the industrial sector or are no longer being produced.
3. IIP in the revised series will continue to represent the Mining, Manufacturing and Electricity sectors. The revised series uses the National Industrial Classification (NIC) 2008 for the purpose of classification of industrial production. The unit coverage of IIP will, as before, cover entities in the organized sector units registered under the Factories Act, 1948.

4. A detailed note on the changes introduced in the new series of IIP is at **Annexure I**.

Highlights of the changes introduced are summarized below:

- a. The selection of items in the new series has been done at the 3 digit level of NIC for better representation as compared to selection at 2 digit level done in 2004-05 series.
- b. At the broad level, the new series has a total of 809 items occurring in the manufacturing sector in the item basket (405 item groups), where 149 new items like Steroids and hormonal preparations, Cement clinkers, Medical/surgical accessories, Pre-fabricated concrete blocks, refined Palm Oil have been added and 124 items such as Biaxially Oriented Polypropylene (BOPP) Films, Calculators, Colour TV picture tubes, Gutka have been deleted from the 2004-05 series which had 620 items (397 item groups) in the manufacturing sector. The sectoral composition of the IIP is as follows:

Sector	Base year 2011-12		Base year 2004-05	
	Weights (%)	Item groups	Weights (%)	Item groups
Mining	14.373	1	14.157	1
Manufacturing	77.633	405	75.527	397
Electricity	7.994	1	10.316	1
<b>Total</b>	<b>100</b>	<b>407</b>	<b>100</b>	<b>399</b>

- c. To reflect the increasing significance of electricity generation from renewable sources, it has been decided to include data on electricity generation figures from these sources in the new series. This inclusion is being done from April, 2014 onwards as monthly data for electricity generation from renewable sources for earlier months were not available.
- d. For capital goods, data in the new series will now be captured in terms of 'work in progress' to better represent the growth of capital goods and to avoid reporting of production figures in bulk after the completion of production. Details on this methodology are available in the Report of the Working Group set up for the revision of base year, which may be accessed in the official website of this Ministry.

- e. The number of source agencies reporting data for compilation of IIP in the new series will be 14 as compared to 15 in the current series. This is on account of the fact that data on 'Iodised Salt' in the new series will be provided by the Department of Industrial Policy and Promotion (DIPP) as O/o Salt Commissioner is not in a position to supply Salt production data after abolition of Salt Cess Act, 1953 in Finance Bill 2016.
- f. In the Mining Sector the coverage has undergone a change on account of the MCDR Amendment Rules, 2016 resulting in 27 non-metallic minerals being designated as minor minerals and which are no longer monitored by Indian Bureau of Mines.
5. Based on the recommendations of the Working Group, the Use-Based Classification (UBC) has been re-framed by replacing "Basic Goods" with "Primary Goods" and introducing a new "Infrastructure/ Construction goods" category. The former change is to improve clarity on the movement of IIP of Primary Goods in industry and the latter aims to address the linkage of production with Infrastructure and Construction sector. A brief table giving the use based classification is given below:

**Use-Based Classification**

<b>New Series (base 2011-12)</b>	<b>Item groups</b>	<b>Weights (%)</b>	<b>Old Series (base 2004-05)</b>	<b>Item groups</b>	<b>Weights (%)</b>
Primary goods	15	34.05	Basic Goods	88	45.68
Intermediate goods	110	17.22	Intermediate goods	106	15.69
Capital goods	67	8.22	Capital goods	73	8.83
Infrastructure/ construction goods	29	12.34	NA	--	--
Consumer durables	86	12.84	Consumer durables	43	8.46
Consumer nondurables	100	15.33	Consumer nondurables	89	21.34
<b>TOTAL</b>	<b>407</b>	<b>100</b>	<b>TOTAL</b>	<b>399</b>	<b>100</b>

NA – Not applicable

6. As in the 2004-05 series, the practice of using Wholesale Price Index (WPI) to deflate items for which data is reported in value terms will continue. However the number of items in the new series for which data will be captured in value terms will be 109 instead of 54 in the existing series. Wholesale Price Index (WPI) with base 2011-12 has been used for deflation.

7. Based on the monthly production figures provided by the source agencies from April 2011 till March 2017, the monthly indices and growth rates have been worked out. The monthly indices for the new series with base 2011-12 from April 2012 through March 2017 at the sectoral level are provided at **Statement I.** The monthly growth rates at the sectoral level for the IIP series with base 2011-12 vis-à-vis 2004-05 are provided at **Statement II.** The annual growth rates at the sectoral level for the IIP series with base 2011-12 vis-à-vis 2004-05 are provided at **Statement III.** The annual growth rates as per the re-framed Use-Based Categories are provided at **Statement IV.**
8. Detailed tables including indices at sectoral level, NIC 2 digit level and as per Use-Based Classification for the old and new series will be made available on the website of MoSPI at 5.30 PM on 12.05.2017.
9. User of the new IIP series (base 2011-12), while comparing with the old series may like to consider the following aspects:
  - a. The growth rates of the two series are not strictly comparable as the indices for 2011-12 have been normalized to 100 at a monthly level.
  - b. There has been an increase in number of factories in panel for reporting data and closed ones have been removed.
  - c. The item basket has been revised with inclusion of new items and exclusion of old ones.
  - d. The electricity sector now includes data from renewable energy sources.
  - e. The coverage of the mining sector has undergone a change.

**NOTE:**

1. This Press release information is also available at the website of the Ministry - <http://www.mospi.gov.in>
2. Release of the index for April 2017 with base 2011-12 will be on Monday, 12<sup>th</sup> June 2017.
3. Press release in Hindi follows and shall be available at: <http://www.mospi.gov.in/hi>

**Changes introduced by CSO, MoSPI in the new series of Index of Industrial Production  
with base 2011-12**

**1. Item Basket Selection**

- i. Selection of items has been done at 3-digit level of NIC 2008 from the Annual Survey of Industries (ASI) data by ensuring that the selected items cover at least 80 percent of the output of each 3 digit group. In comparison, the items in 2004-05 series were selected at 2-digit level of NIC. The selection at more disaggregated level will make the index more representative.
- ii. By the above method, the items selected for new series of IIP with base 2011-12 comprised of 809 items, which were clubbed in 405 item groups pertaining to Manufacturing Sector. Mining and Electricity sectors will be represented by a single item index. In comparison, the 2004-05 series basket comprised of 620 items clubbed into 397 item groups for Manufacturing Sector and one item each for Mining and Electricity sectors. The item basket for the new series is placed at **Appendix I**.
- iii. The basket of Mining Sector will now comprise of 29 minerals (**Appendix II**) identified by the Indian Bureau of Mines (IBM) as opposed to 62 minerals in the Mining basket of 2004-05 series. The decline in number of items is on account of 27 non-metallic minerals in the existing basket being declared as minor minerals in the MCDR Amendment Rules, 2016.

**2. Weighting diagram**

- i. Weights at the sectoral level for the new series of IIP have been computed using the sectoral Gross Value Added (GVA) figures from National Accounts Statistics with base 2011-12.
- ii. The sectoral weights have been distributed at 2, 3 and 4 digit levels of National Industrial Classification (NIC), 2008 using GVA figures from ASI 2011-12.
- iii. The weights at 4 digit level of NIC have been distributed at product level using value of output figures from ASI 2011-12.
- iv. In view of heavy subsidies involved in the industry group 'Petroleum products', it was decided to adjust the GVA from ASI with the actual subsidies provided by the

Government of India to the manufacturers to offset the losses made by them while selling products at a price lower than the actual cost of production. The weights of other industries were appropriately readjusted.

### **3. Comparison of items and weights in the two series**

Out of 407 item groups (including Mining and Electricity), 258 item groups are common with the existing basket, having a weight of approximately 84.6 percent (as per the new series with base 2011-12) while 124 item groups from existing basket comprising a weight of approximately 14.4 percent (as per the existing series with base 2004-05) are outdated/ obsolete and hence dropped (list of dropped items at **Appendix III**). The number of new items in the new series of IIP is 149 with a weight of approximately 15.4 percent.

### **4. Classification**

National Industrial Classification (NIC)-2008 is being adopted in the new series instead of NIC-2004.

### **5. Source agencies**

The monthly production data for the compilation of new series of IIP are now being made available to the CSO by fourteen (14) source agencies viz. (1) Indian Bureau of Mines (IBM), (2) Directorate of Sugar & Vegetable Oils, (3) Tea Board, (4) Coffee Board, (5) O/o the Textile Commissioner, (6) O/o the Jute Commissioner, (7) O/o the Coal Controller, (8) M/o Petroleum & Natural Gas, (9) Joint Plant Committee (Iron & Steel), (10) Railway Board, (11) D/o Industrial Policy & Promotion, (12) D/o Chemicals & Petrochemicals, (13) D/o Fertilizers and (14) Central Electricity Authority.

### **6. Work in progress**

In the revised IIP basket, data for 109 item groups is being collected in value terms. Many of these item groups have production span of more than one month for which data will now be reported on 'work in progress' so that continuous production is accounted for and will address the fluctuations in production data. The value data reported for such items need to be deflated using an appropriate price deflator. The Wholesale Price Index (WPI) with base 2011-12 has been used for deflating value based items in the new series of IIP.

## **7. Frame of factories**

- i. The frame of factories was drawn from the results of 4 years of ASI to make it more representative and robust and was also duly augmented with frames maintained by source agencies of IIP, as and where applicable.
- ii. The frame of factories for D/o Industrial Policy & Promotion (DIPP) which is the most important source in terms of number of items as well as weights underwent a significant expansion in terms of coverage and robustness. The number of factories under DIPP's purview in the new series will increase by about 1400 in the current series. The number of factories reporting data for each item (except 13 items) will be at least 4 thereby reducing chances of exhibiting abnormal volatility during currency of the series after its launch. The 13 items for which number of factories are less than 4 have been retained in consultation with DIPP in view of their emerging nature and contribution at the industry level.

## **8. Use-Based Classification**

The Use-Based Classification has been re-framed to ensure better representativeness. There are two new categories introduced in the new series namely "Primary goods" and "Infrastructure/ Construction goods". At the same time the category "Basic goods" has been removed. The re-framed Use-based classifications (UBCs) to be adopted in the new series are as follows:

- i. Primary goods- consisting of Mining, Electricity, Fuels and Fertilizers. This category will replace the existing category 'Basic goods';
- ii. Capital goods- e.g. Machinery items;
- iii. Intermediate goods- e.g. yarns, chemicals, semi-finished steel items, etc.;
- iv. Infrastructure/ Construction goods - e.g. paints, cement, cables, bricks and tiles, rail materials, etc. This category has been constituted to categorize items which were neither part of Consumer durables nor Intermediate goods. This categorization assumes significance in wake of growing importance of infrastructure sector;
- v. Consumer durables- e.g. garments, telephones, passenger vehicles, etc.; and
- vi. Consumer nondurables- e.g. food items, medicines, toiletries, etc.

**APPENDIX I**

**List of item groups in the new series of IIP with base 2011-12**

<b>S. No.</b>	<b>NIC 5 digit</b>	<b>Use-based classification</b>	<b>Item groups</b>	<b>Accounting Unit</b>	<b>Weights (%)</b>

387	30921	Consumer durables	Bicycles - all types	Thousand Numbers	0.0949
388	31001	Consumer durables	Wooden Furniture	Rs. Crore	0.0508
389	31003	Consumer durables	Steel Furniture including safety vaults	Rs. Crore	0.0319
390	31005	Consumer durables	Mattresses made of foam/ LRPu, coir or rubberized coir	Rs. Crore	0.0484
391	32111	Consumer durables	Jewellery of gold (studded with stones or not)	Rs. Crore	0.4381
392	32112	Consumer durables	Cut & Polished diamonds	Rs. Crore	0.1635
393	32203	Consumer durables	Musical instruments	Rs. Crore	0.0032
394	32300	Consumer durables	Carrom boards	Numbers	0.0022
395	32300	Consumer durables	Cricket Ball	Thousand Numbers	0.0002
396	32300	Consumer durables	Cricket Bat	Thousand Numbers	0.0026
397	32300	Consumer durables	Football	Thousand Numbers	0.0072
398	32300	Consumer durables	Gymnasium/ athletics articles and equipments	Rs. Crore	0.0009
399	32300	Consumer durables	Sports goods of rubber (incl. balls)	Thousand Numbers	0.0028
400	32300	Consumer durables	Table Tennis Table	Numbers	0.0010
401	32405	Consumer durables	Games & Toys (excl. video games machines & other mechanical/ electrical equipment for gaming parlours/ fairs)	Rs. Crore	0.0060
402	32503	Capital goods	Medical/ dental instruments (except syringes)	Rs. Crore	0.0829
403	32507	Consumer durables	Lenses of all kinds	Thousand Numbers	0.0487
404	32901	Consumer durables	Stationery items	Rs. Crore	0.1127
405	32903	Consumer durables	Umbrellas and parts	Rs. Crore	0.0216
406	32904	Consumer durables	Human hair- articles thereof	Rs. Crore	0.0478
407	35000	Primary goods	Electricity	Giga Watt Hours	7.9943

**APPENDIX II**

**List of items included in the Mining Basket for IIP with base 2011-12**

Sl. No.	NIC code	Mineral	Weight (%) in IIP 2011-12
	<b>5</b>	<b>COAL &amp; LIGNITE</b>	4.41041
1	510	COAL	4.16091
a	05101-2	Coal Raw	4.06188
b	5103	Coal Middlings	0.04369
c	5103	Washed Coal	0.05534
2	520	LIGNITE	0.24950
	<b>6</b>	<b>PETROLEUM (CRUDE) &amp; NATURAL GAS (UT.)</b>	6.38618
3	610	NATURAL GAS (UT.)	2.76897
4	620	PETROLEUM (CRUDE)	3.61721
	<b>7</b>	<b>Metallic Minerals</b>	3.30585
5	7292	BAUXITE	0.04072
6	7294	CHROMITE	0.17282
7	7291	COPPER CONC.	0.03043
8	7295	GOLD (TOTAL)	0.03284
9	7100	IRON ORE (TOTAL)	2.86087
10	7296	LEAD CONC.	0.01087
11	7296	ZINC CONC.	0.08791
12	7293	MANGANESE ORE	0.06918
13	7299	TIN CONC.	0.00022
	<b>8</b>	<b>Non-Metallic Minerals</b>	0.27056
14	8912	APATITE	0.00004
15	8912	PHOSPHORITE	0.03589
16	8995	ASBESTOS	0.00009
17	8991	DIAMOND	0.00145
18	8914	FLUORITE (GRADED)	0.00009
19	8992	GARNET (ABRASIVE)	0.00497
20	8994	GRAPHITE (R.O.M.)	0.00042
21	8109	KYANITE	0.00003
22	8109	SILLIMANITE	0.00382
23	8107	LIMESHELL	0.00033
24	8107	LIMESTONE	0.21880
25	8109	MAGNESITE	0.00211
26	8107	MARL	0.00165
27	8105	SELENITE	0.00013
28	8996	VERMICULITE	0.00004
29	8108	WOLLASTONITE	0.00069
<b>All Minerals</b>			<b>14.37300</b>

**APPENDIX III**

**List of item groups dropped from the existing basket (base 2004-05)**

S. No.	Item group	Unit	Weight (%) as per 2004-05
1	Rice bran Oil	Tonnes	0.0837
2	Flavoured Milk	Thousand Litres	0.0029
3	Glucose(powder & liquid)	Tonnes	0.0159
4	Malted Foods	Tonnes	0.0335
5	Gutka	Kgs	0.0241
6	Pan Masala	Tonnes	0.0871
7	Nylon yarn	Million Kgs	0.0408
8	fabrics/cloth, rayon (knitted)	Million Square Metres	0.0122
9	Non-cotton cloth	Million Square Metres	0.3866
10	Acrylic fibre_fabric	Million Kgs	0.0457
11	Synthetic yarn	Million Kgs	0.5513
12	carpet backing cloth	Thousand Tonnes	0.0003
13	D.W.Tarpaulin	Thousand Tonnes	0.0023
14	Rayon yarn	Million Kgs	0.0350
15	Sacking	Thousand Tonnes	0.1559
16	yarn, jute	Thousand Tonnes	0.0217
17	grey cloth (bleached / unbleached)	Million Square Metres	0.9091
18	staple fibre, polyester_raw	Million Kgs	0.0024
19	twine, jute (sutli)	Thousand Tonnes	0.1479
20	canvas	Thousand Tonnes	0.0008
21	Elastic Tape	Thousand Metres	0.0503
22	Leather Gloves	Thousand Pairs	0.0184
23	Leather Shoes	Thousand Pairs	0.0793
24	Shoe Uppers (Leather)	Thousand Pairs	0.0928
25	Block Board	Square metres	0.5105
26	Laminated/Coated Paper	Tonnes	0.0374
27	Pulp Rayon Grade	Tonnes	0.0053
28	Carbon Black	Tonnes	0.0712
29	coal meddling	Thousand Tonnes	0.0155
30	coal, washed	Thousand Tonnes	0.1705
31	Oil, Lubricating	Thousand Tonnes	0.2049
32	Propylene	Tonnes	0.4092
33	Dissolved Acetylene Gas	Cubic metres	0.0022
34	Acetone	Tonnes	0.0169
35	Maleic anhydride	Tonnes	0.0065
36	Phenol	Tonnes	0.0356
37	Sodium Hydrosulphate/Sodium Hydrosulphite	Tonnes	0.0056
38	Glycerine	Tonnes	0.0063
39	Calcium Ammonium Nitrate(CAN)	Thousand Tonnes	0.0059
40	PVC Resins	Tonnes	0.1238
41	Synthetic Resins	Tonnes	0.0958
42	Benzene	Tonnes	0.0873

S. No.	Item group	Unit	Weight (%) as per 2004-05
43	Ethylene	Tonnes	0.4002
44	Paraxylene	Tonnes	0.1932
45	Polystyrene	Tonnes	0.0673
46	Rubber Chemical	Rs. Crore	0.0492
47	Ethylene oxide	Tonnes	0.0330
48	Whitening Agents	Tonnes	0.0092
49	Tooth Powder	Tonnes	0.0020
50	Guar Gum Splits	Tonnes	0.0631
51	Leather Finishing Chemicals & Auxiliaries	Tonnes	0.0286
52	Acrylonitrile	Tonnes	0.0312
53	Polyester staple fibre	Tonnes	0.0717
54	Viscose Staple Fibre	Tonnes	0.0327
55	Acrylic fibre	Tonnes	0.0209
56	Nylon filament yarn	Tonnes	0.0071
57	Nylon industrial yarn/tyre cord	Tonnes	0.0135
58	Polyester filament yarn	Tonnes	0.1190
59	Tyre, Truck/Bus	Thousand Numbers	0.2375
60	Rubber Flaps	Numbers	0.0051
61	Hose Pipe	Rs. Crore	0.0780
62	Pvc/Plastic Suitcases	Numbers	0.0209
63	Biaxially Oriented Polypropylene (BOPP) Film	Tonnes	0.2520
64	Plastic Rope	Tonnes	0.0096
65	Plastic Sheets	Tonnes	0.0571
66	Toughened Glass	Square Metres	0.0261
67	Porcelain And Ceramic Sanitary Wares	Rs. Crore	0.0246
68	Magnesite, Dead Burnt	Tonnes	0.0070
69	railway sleeper	Thousand Numbers	0.1040
70	Carbon steel	Thousand Tonnes	0.7808
71	Semis	Thousand Tonnes	0.1206
72	Stainless/ alloy steel	Thousand Tonnes	0.6401
73	Steel wires (wire drawing)	Thousand Tonnes	0.2054
74	GP/GC sheets	Thousand Tonnes	0.2453
75	Electric sheets	Thousand Tonnes	0.1341
76	Wires (Copper)	Tonnes	0.1747
77	Aluminium Foils	Tonnes	0.1086
78	Aluminium Sheets/Plates	Tonnes	0.1824
79	Aluminium wires & extrusions	Tonnes	0.3563
80	Steel Castings	Tonnes	0.2146
81	Steel Structures	Tonnes	0.5477
82	Tin Containers	Rs. Crore	0.0256
83	Stampings & Forgings	Tonnes	0.4917
84	Cock (Faucets)	Thousand Numbers	0.0099
85	Sealed Compressors	Thousand Numbers	0.1254
86	Industrial Chains	Tonnes	0.0596
87	Forklift	Numbers	0.0152

S. No.	Item group	Unit	Weight (%) as per 2004-05
88	Packaging Machinery	Rs. Crore	0.0590
89	Heat Exchangers	Rs. Crore	0.1021
90	Chemical Equipment And Systems	Rs. Crore	0.0168
91	Drilling Equipment	Numbers	0.0863
92	Earth Moving Machinery	Numbers	0.2287
93	Dairy Machinery	Rs. Lakh	0.0195
94	Cement Machinery	Rs. Crore	0.1215
95	Driers	Numbers	0.0335
96	Fans	Thousand Numbers	0.0363
97	Chillers	Numbers	0.0077
98	Calculators	Numbers	0.0024
99	Battery Charger	Numbers	0.0032
100	Air Break Switches / Circuit Breakers	Thousand Numbers	0.1358
101	Electrical Switchboard	Rs. Crore	0.0444
102	XLPE Cable	Kilometres	0.0202
103	Lead Oxide	Tonnes	0.0027
104	Mercury Vapour Lamp	Thousand Numbers	0.0081
105	Stabilisers	Rs. Crore	0.0100
106	Magnets	Rs. Crore	0.0136
107	Graphite Electrodes/Anodes	Tonnes	0.0419
108	Welding Rods	Tonnes	0.0126
109	Colour TV Picture Tubes	Thousand Numbers	0.1610
110	IC Chips & Transistors	Thousand Numbers	0.0199
111	EPABX / PABX Systems	Numbers	0.0079
112	Amplifier	Numbers	0.0060
113	Syringes	Thousand Numbers	0.0736
114	Water meter of all kinds	Numbers	0.0126
115	Cooling Towers	Rs. Crore	0.0891
116	Watches	Thousand Numbers	0.0280
117	Utility/Multi-Purpose Vehicles	Numbers	0.0571
118	Railway axle	Numbers	0.0039
119	wheel , railway	Numbers	0.0048
120	Motor Cycles	Numbers	0.9523
121	Three-Wheelers(including passenger & goods carrier)	Numbers	0.3254
122	Parts - Bicycle	Rs. Crore	0.0001
123	Pens of All Kind	Thousand Numbers	0.5910
124	Tooth Brush	Thousand Numbers	0.0990
