

Corrigendum on Manual on Pooling of Central and State Sample Data

Kindly refer the **Manual_write_up.pdf** of the **Manual on Pooling of Central and State Sample Data** in the webpage :

[“http://www.mospi.gov.in/sites/default/files/reports_and_publication/statistical_manual/cso_all_manual/pooling_of_central_and_state_sample_data/Manual_write_up.pdf”](http://www.mospi.gov.in/sites/default/files/reports_and_publication/statistical_manual/cso_all_manual/pooling_of_central_and_state_sample_data/Manual_write_up.pdf)

1. In “Chapter 3: Pooling Methodology”, page no. 11, the formulae of χ^2 for **Median test** may read as

$$\chi^2 \text{ Value} = \sum_{i=1}^2 \sum_{j=1}^2 (O_{ij} - E_{ij})^2 / E_{ij}$$

2. The formulae of χ^2 in page no. 12 of the same chapter for **Multinomial distribution test** or χ^2 test may be read as

$$\chi^2 \text{ Value} = \sum_{i=1}^2 \sum_{j=1}^k (O_{ij} - E_{ij})^2 / E_{ij}$$
